

Luxury multi unit residences require a sophisticated touch. For that reason AV integrators turn to Crestron® for Audio, Video, Lighting,, Environmental & controls. They turn to AV LinkPro™, for video Intercom.

It's all about communication:

- Face to Face communications.
- Automated door attendant communication
- Direct call buttons to concierge, building Services.
- Voicemail alerts and direct message playback.
- Unified communication with building intercom
- Video feeds from a variety of sources.
- Within Residence Expansion to local Crestron

With AV LinkPro you can add full telephone functions including video telephone services. Door camera and intercom security stations can be interfaced into the total scheme. Virtual Front Door security services can be easily added.

Technically Speaking one AV LinkPro can provide

- Managing SIP PBX Server
- Full HD Video/Audio Intercom
- Video feeds from any IP source
- Music on hold features
- Voice prompts and custom paging
- Voicemail and custom sound options
- 100% Crestron® RAVA SIP Compatible
